PROPERTY DESCRIPTION

REDUCED! Tucked away in a quiet neighborhood cul-de-sac off Fish Creek Falls Road you'll find this beautiful home with exceptional finishes throughout. Start with 5 bedrooms, 4.5 bathrooms and three levels of rustic panache and you've found your ideal family home. On the main level you'll have a kitchen to die for, with stainless steel Viking appliances, a large island, beverage refrigerator to chill your favorite bottle and open access to the living and dining areas. The impressive living room boasts spectacular log beam woodwork, a stone fireplace to gather around, lofted ceilings and lots of windows for exceptional natural light. The focal point of the room is the grandiose chandelier from the early 1900's; fully restored, made of Steuben glass and valued at \$20,000. Tucked to the side is a marvelous office that makes work from home a true delight. The master bedroom looks out to a superb rock garden, has a walk-in closet, flat screen TV and a lavish master bathroom. The hand-crafted, decorative wood banister staircase leads to 3 upstairs bedrooms and a spacious loft ready for whatever your desire. The downstairs is a true escape, with a large family room that includes a built-in entertainment center and guest bedroom. Adjacent to that is an oversized 2-car garage with an in-home gym area, lots of space for staging your gear and seemingly endless storage running the length of the home. Cap it off with completely unobstructed views of the Ski Area from the large, wrap-around deck and your home search ends here!
